REFRESH MIAMI WORKSHOP / AUGUST 12, 2017

Discussion Settings

The screenshot shows the WordPress Discussion Settings page. The left sidebar contains navigation links: Dashboard, Posts, Media, Pages, Comments, Appearance, Plugins, Users, Tools, Settings (highlighted), General, Writing, Reading, Discussion, Media, Permalinks, and Collapse menu. The main content area is titled "Discussion Settings" and includes a "Help" button. The settings are organized into sections: "Default article settings" (with three checked options), "Other comment settings" (with five options, including a dropdown for "5" levels deep), "Email me whenever" (with two checked options), "Before a comment appears" (with two options), and "Comment Moderation" (with a link count of "2" and a text area for a blacklist). The top of the page shows "My Sites", "Site 0", and "Howdy, dbisset".

My Sites Site 0 + New Howdy, dbisset Help

Discussion Settings

Default article settings

- Attempt to notify any blogs linked to from the article
- Allow link notifications from other blogs (pingbacks and trackbacks) on new articles
- Allow people to post comments on new articles

(These settings may be overridden for individual articles.)

Other comment settings

- Comment author must fill out name and email
- Users must be registered and logged in to comment (Signup has been disabled. Only members of this site can comment.)
- Automatically close comments on articles older than days
- Enable threaded (nested) comments levels deep
- Break comments into pages with top level comments per page and the page displayed by default

Comments should be displayed with the comments at the top of each page

Email me whenever

- Anyone posts a comment
- A comment is held for moderation

Before a comment appears

- Comment must be manually approved
- Comment author must have a previously approved comment

Comment Moderation

Hold a comment in the queue if it contains or more links. (A common characteristic of comment spam is a large number of hyperlinks.)

When a comment contains any of these words in its content, name, URL, email, or IP, it will be held in the [moderation queue](#). One word or IP per line. It will match inside words, so "press" will match "WordPress".

Comment Blacklist

When a comment contains any of these words in its content, name, URL, email, or IP, it will be put in the trash. One word or IP per line. It will match inside words, so

Post Comment Settings

The screenshot displays the WordPress 'Edit Post' interface. The main content area shows the post title 'Hello world!' and the body text: 'Welcome to [WordPress Workshop Sites](#). This is your first post. Edit or delete it, then start blogging!'. The interface includes a left sidebar with navigation options like 'Dashboard', 'Posts', 'Media', and 'Settings'. The right sidebar contains various settings panels: 'Publish' (Status: Published, Visibility: Public, Published on: Aug 11, 2017 @ 23:40), 'Format' (Standard selected), 'Categories' (Uncategorized selected), and 'Tags'. The 'Discussion' panel is expanded, showing 'Allow comments' and 'Allow trackbacks and pingbacks on this page' both checked. The 'Comments' panel at the bottom shows a comment from 'A WordPress Commenter' with the text 'Hi, this is a comment. To get started with moderating, editing, and deleting comments, please visit the Comments screen in the dashboard. Commenter avatars come from [Gravatar](#).' The top navigation bar includes 'My Sites', 'Site 0', 'New', and 'View Post'.

Site Comments - Edit/Spam

The screenshot shows the WordPress dashboard's 'Comments' management interface. The top navigation bar includes 'My Sites', 'Site 0', and a notification icon. The user is logged in as 'Howdy, dbisset'. The left sidebar contains standard dashboard menus: Dashboard, Posts, Media, Pages, Comments (highlighted), Appearance, Plugins, Users, Tools, Settings, and Collapse menu. The main content area is titled 'Comments' and shows a summary: 'All (1) | Pending (0) | Approved (1) | Spam (0) | Trash (0)'. There are controls for 'Bulk Actions', 'Apply', 'All comment types', and 'Filter'. A search bar is also present. The comment list shows one item with the following details:

<input type="checkbox"/>	Author	Comment	In Response To	Submitted On
<input type="checkbox"/>	A WordPress Commenter miamiwp.org wapuu@wordpress.example	Hi, this is a comment. To get started with moderating, editing, and deleting comments, please visit the Comments screen in the dashboard. Commenter avatars come from Gravatar .	Hello world! Widget Page

The screenshot shows the WordPress Widgets management interface. On the left is a dark sidebar with navigation options: Dashboard, Posts, Media, Pages, Comments, Appearance (highlighted), Themes, Customize, Widgets, Menus, Header, Plugins, Users, Tools, Settings, and Collapse menu. The main content area is titled 'Widgets' and includes a 'Manage with Live Preview' button. It is divided into three sections: 'Available Widgets', 'Blog Sidebar', and 'Inactive Widgets'. The 'Available Widgets' section contains 16 widget cards, each with a title and a brief description. The 'Blog Sidebar' section shows a list of currently active widgets in the sidebar, including Search, Recent Posts, Recent Comments, Archives, Categories, and Meta. The 'Inactive Widgets' section is currently empty. The top right of the page shows the user's name 'Howdy, dbisset' and utility buttons for 'Screen Options' and 'Help'.
